Operator Advisory for Food Donations:

California state food law allows for the donation of surplus foods that are still fit for human consumption. Donating surplus wholesome food instead of throwing it in the trash can feed hungry people, save space in our landfills, and prevent the emission of harmful greenhouse gases. The California Good Samaritan Food Donation Act (AB 1219) and the Federal Bill Emerson Good Samaritan Food Donation Act provides liability protections for businesses that make good faith donations of surplus food. Please see the links below for more information:
